International Vice president & Chairperson of the SCC

Working together

IBZ Castle Gimborn - The IPA Flagship

We are celebrating 50 years of IBZ castle Gimborn, but it has a history that goes back to 1273, 746 years old.

If you review the list of seminars, all of them are very professional.

Within IPA we have lot of professional issues like: Recruit young police officers, IPA management, how to initiate international events, sports, social and more. Hosting and travel, International partnerships.

We cannot duplicate Gimborn, but we could significantly expand our ability to reach all sections.

We should have a goal to expand the number of sections that will come to Gimborn, but also to bring Gimborn to the sections all over the world.

We cannot bring the beautiful castle, but we can bring the professional abilities and great team.

The second goal should be to initiate professional seminars for the IPA leadership in all sections.

IPA will celebrate 70th anniversary next year. A lot of countries within IPA are younger. IPA is a big association, with tradition, history and a lot of professional issues that should be learnt, developed, promoted.

Gimborn is the best platform to do it.

It's time for Gimborn to head out to the big sea, sail far and get to all the sections. Share additional sections within the management and board of directors.

It's time to grow, expand, and see much further.

I wish the Executive, René Kauffmann, the Board of Directors and all our friends at Gimborn an additional 50 years of professional work with all IPA sections in the world.

Servo per amikeco

Yours in friendship

Adv. Gal Sharon

International Vice President
